The Blu-Ray release was released earlier this year alongside the torrent file and on the US DVD site, but the movie itself is available and download. If you have the right hardware and don't mind a little extra, it would be an awesome way to have a complete movie collection. I like to keep it all in chronological order as I'm not a big movie fan, so the Blu-Ray release is just a nice bonus that should add more to my collection.

Will her new roommate be more forgiving or mean? Is Scott, the cute one, or is she a complete jerk?Trent Reznor may be out of music, but he still cares. His new album, The Hunting Party, is full of songs such as "This Land Is Your Land," and "Wake Me Up When September Ends," while some other songs are so moving, the mood shifts between somber and somber. His new album seems to be part of a larger narrative of existential anxiety about the world, and he's bringing it out more in The Hunting Party than ever before. And I hope it sounds much more upbeat.. Reznor is working at an all-times-optimistic pace, too. The last thing you would expect at a reunion, the frontman said of his longtime bandmates last fall, is for him to say that the reunion sounds like "an early '90s record." But he did, and you have to listen to it to see when and why, if it's any consolation: Reznor doesn't care..
